

MEOPRO OPTIKA5

Second Focal Plane

MeoPro Optika5 is a new line for 2020. Like its predecessor (the MeoPro line), it is inspired by the American hunting tradition. MeoPro Optika5 riflescopes were developed to provide hunters and shooters with a combination of quality optics, a one-inch tube and a 5x zoom. Version 4-20x50 RD has an illuminated reticle. The rifle scope's W/E adjustment with correction in MOA has a zero-reset function. On model 3-15x44 and up, MeoPro Optika5 riflescopes have parallax correction from 10 yards to infinity. Of course, excellent quality is a given and goes hand in hand with a great price.

FEATURES

- **PREMIUM EUROPEAN OPTICS**
- **1" ALUMINIUM TUBE**
- **SECOND FOCAL PLANE RETICLES (SFP)**
- **5X ZOOM**
- **ZERO-RESET TURRET**
- **1/4 MOA ADJUSTMENTS**
- **MEODROP™**
- **MEOBRIGHT™**
- **POWER THROW LEVER**
